MAXAVA SWAP READY AUDIT CERTIFICATION

**BE PREPARED
STAY CERTIFIED!**

Is Your Maxava IBM i HA/DR Environment Ready to Role Swap?

Without regular validation, unexpected issues in setup, configuration, or connectivity can prevent a seamless transition when you need it most. The Maxava Swap Ready Audit Certification ensures your Maxava HA environment is fully prepared for a role swap minimizing risk and maximizing confidence.

What is the Swap Ready Audit Certification?

The Maxava Swap Ready Audit Certification is an annual assessment conducted by our expert HA/DR specialists. Through a comprehensive audit, we verify your replication environments' readiness for a role swap. If your system passes the audit, you receive an official digital Swap Ready Certificate from Maxava.

Key Benefits

- **Mitigate Downtime Risks:** Proactive assessment helps prevent unexpected failures and delays during critical failover events.
- **Expert Validation:** Ensure your HA environment is role swap-ready with a certification to prove it.
- **Identify & Resolve Gaps:** If issues are found, receive a detailed list of exceptions that could prevent a successful role swap.
- **Flexible Resolution Options:** Fix identified issues internally or engage Maxava experts for remediation services.
- **Annual Certification:** Maintain ongoing confidence in your ability to be able to role swap with regular yearly audits.

How It Works

- **Comprehensive Review:** Our team assesses your Maxava HA setup, configuration, and communication status.
- **Certification Awarded:** If your environment meets readiness standards, you receive a Swap Ready Certificate along with a high-level summary.
- **Issue Identification:** Any exceptions that may impact a role swap are documented and provided.
- **Remediation Support:** Choose to address exceptions in-house or work with Maxava specialists for resolution.

Get Disaster-Ready

Maintain business continuity with the Maxava Swap Ready Audit Certification. Don't leave your HA/DR, to chance validate it with confidence.
